

THE ACCELERATED EDUCATION PROGRAM PRESENTS:

Soft Tissue Sarcoma: The Toronto System

October 26-27, 2017

Princess Margaret Cancer Centre, Toronto, Canada

Join us for an exciting meeting led by a local team of interdisciplinary experts, outlining the successful Toronto approach to managing soft tissue sarcomas (STS). Experience an intimate and immersive curriculum over 2 days, where faculty will utilize a variety of approaches to demonstrate the development of a modern, evidence-based 'best practice' model for sarcoma management. The multidisciplinary practice environment that is essential for STS care will also be highlighted in a 'tumour board' discussion of challenging cases.

What to Expect:

- 2 day on-site course
- Course Directors: **Dr. Peter Ferguson, MD,**
Dr. Charles Catton, MD & Ms. Colleen Dickie, MRT(T)
- Mix of didactic lectures & hands-on application with interprofessional expert faculty
- Access to online pre- & post-course learning materials
- Networking social events
- Breakfast, lunch & breaks provided
- Registration: \$2,000 CDN
(trainee fee: \$350 CDN; special pricing for interdisciplinary teams)

SPACE IS LIMITED!
