

# TARGET INSIGHT

## PERSONALIZED RADIATION MEDICINE: FROM THEORY TO PRACTICE

MONDAY, MAY 1, 2017 | TORONTO

Target Insight is a one-day conference for Radiation Medicine teams including oncologists, physicists, therapist, nurses, radiation scientists and trainees.

As radiation medicine becomes increasingly specialized, critical learnings and breakthroughs in one area may go unrecognized in a different area. Target Insight will highlight some recent innovations in Radiation Medicine. Participants will explore the most recent evidence driving change, and the barriers and enablers in translating evidence into practice. Whether you are an expert on the chosen topics or not, participants will find the day highly engaging and the discussions stimulating.

### HIGHLIGHTS

Two keynotes from leaders in radiation medicine:

- Dr. Fei-Fei Liu
- Dr. David Jaffray

Two concurrent workshops about:

- “Cancer and Aging”
- “Mentorship in Radiation Medicine”

Debate:

- “Radiotherapy Treatment Adaptation: Dose or volume?”

 #TargetInsightConf

### CONFERENCE GOAL

The goal of Target Insight is to generate innovative ideas to help attendees translate lessons learned into opportunities in other clinical, research and education areas.

The following questions will be explored:

- Is this new development ready for my center?
- What are the barriers and enablers to implementing this into routine clinical practice?
- Would this new strategy work in another area?
- Can I implement this new knowledge to my clinical, research and education practices?

### FACULTY

- Dr. Fei-Fei Liu, University of Toronto / Princess Margaret Cancer Centre
- Dr. David Jaffray, University of Toronto / Princess Margaret Cancer Centre
- Dr. Eric Vigneault, Universite Laval / Centre de Recherche sur le Cancer
- Dr. Ivo Olivotto, University of Calgary / Arnie Charbonneau Cancer Institute
- Dr. Shabbir Alibhai, University of Toronto / University Health Network
- Dr. Martine Puts, University of Toronto
- Dr. Ewa Szumacher, University of Toronto / Odette Cancer Centre
- Dr. Laura Dawson, University of Toronto / Princess Margaret Cancer Centre
- Dr. Yee Ung, University of Toronto / Odette Cancer Centre
- Dr. John Waldron, University of Toronto / Princess Margaret Cancer Centre
- Dr. Jennifer Croke, University of Toronto / Princess Margaret Cancer Centre
