MRS Applicant Checklist **PREVIEW**

This document is a preview of the online MRS Applicant Checklist survey and is provided for reference only. Applicants will receive a personalized link to the online survey after submitting an application for admission.

2023-2024 MRS Applicant Checklist

Thank you for your application to the Medical Radiation Sciences (MRS) program.

Completion of this Checklist is required to confirm your academic eligibility for admission to the MRS program. If you are unable to complete the survey in one session, you may close your browser window and your responses will be saved. You may then return to the survey at a later time by using the personalized link that was forwarded to you in your acknowledgment email. Once you submit your survey (or if your session "times out"), however, you will not be able to make changes. If you need assistance, please contact the MRS Admissions Office at <u>mrs.admissions@utoronto.ca</u>.

Please complete all sections below and submit this survey no later than February 15.

In addition to this Checklist, you must also submit final and/or in-progress post-secondary transcripts (from every post-secondary institution you have attended) that include Fall 2022 course results (if applicable) and proof of English language proficiency (if required). All required documents must be submitted to the University of Toronto by the February 15 Document Deadline.

PERSONAL INFORMATION

First/Given Name	
Last Name	
U of T Applicant Number	
Email Address associated	with your application*

*Please be aware that if you have an active utoronto.ca email address, all communications regarding your application will be forwarded to your University of Toronto email address even if you have provided an alternate address on your application.

MRS STREAM SELECTION

I have applied to the following stream of the MRS program:

- O Nuclear Medicine & Molecular Imaging Technology (NMMIT)
- Radiation Therapy
- Radiological Technology

If you were to choose "Nuclear Medicine & Molecular Imaging Technology" above you would receive the following confirmation and request to identify your second choice stream.

You have indicated that you have applied for admission to Nuclear Medicine & Molecular Imaging Technology.

Although MRS applicants may apply to just one stream in the MRS program (Nuclear Medicine & Molecular Imaging Technology, Radiation Therapy or Radiological Technology), you are invited to indicate if you would like to be considered for an alternative stream if space in Nuclear Medicine & Molecular Imaging Technology is not available.

Please note: If you have also applied to Michener directly for one or more Michener programs (which are not affiliated with the University of Toronto), it is not necessary for you to rank or identify your program preferences. Your MRS application and your Michener application(s) will each be processed and evaluated separately.

If you have a second choice, please indicate it below:

Radiation Therapy is my second choice

O Radiological Technology is my second choice

I do not have a second choice, I am only interested in Nuclear Medicine & Molecular Imaging Technology

If you were to choose "Radiation Therapy" above you would receive the following confirmation and request to identify your second choice stream.

You have indicated that you have applied for admission to Radiation Therapy.

Although MRS applicants may apply to just one stream in the MRS program (Nuclear Medicine

& Molecular Imaging Technology, Radiation Therapy or Radiological Technology), you are invited to indicate if you would like to be considered for an alternative stream if space in Radiation Therapy is not available.

Please note: If you have also applied to Michener directly for one or more Michener programs (which are not affiliated with the University of Toronto), it is not necessary for you to rank or identify your program preferences. Your MRS application and your Michener application(s) will each be processed and evaluated separately.

If you have a second choice, please indicate it below:

O Nuclear Medicine & Molecular Imaging Technology is my second choice

O Radiological Technology is my second choice

 \bigcirc I do not have a second choice. I am only interested in Radiation Therapy

If you were to choose "Radiological Technology" above you would receive the following confirmation and request to identify your second choice stream.

You have indicated that you have applied for admission to Radiological Technology.

Although MRS applicants may apply to just one stream in the MRS program (Nuclear Medicine & Molecular Imaging Technology, Radiation Therapy or Radiological Technology), you are invited to indicate if you would like to be considered for an alternative stream if space in Radiological Technology is not available.

Please note: If you have also applied to Michener directly for one or more Michener programs (which are not affiliated with the University of Toronto), it is not necessary for you to rank or identify your program preferences. Your MRS application and your Michener application(s) will each be processed and evaluated separately.

If you have a second choice, please indicate it below:

O Nuclear Medicine & Molecular Imaging Technology is my second choice

O Radiation Therapy is my second choice

O I do not have a second choice. I am only interested in Radiological Technology

PREVIOUS UNDERGRADUATE EDUCATION

To be eligible for admission, applicants to the MRS program must have completed at least one full year of study (5.0 full-course equivalents / 10 single-semester courses) in an undergraduate degree program (or equivalent) prior to admission. Please indicate below if you have already completed at least one year of undergraduate study, or if you are currently in the process of completing the required study. If you are unsure if your previous studies will satisfy admission requirements, please contact the MRS Admissions Office at <u>mrs.admissions@utoronto.ca</u>.

Please select the statement that best describes your situation as of the February 15 Document Deadline:

○ I have already completed at least 10 single-semester courses (equivalent to 5.0 U of T credits) that are part of, or transferrable to, an undergraduate degree program.

○ I am currently in the process of completing the required 10 single-semester courses (equivalent to 5.0 U of T credits) that are part of, or transferrable to, an undergraduate degree program.

POST-SECONDARY INSTITUTIONS ATTENDED

Applicants must report all previous post-secondary (college or university) study and provide complete transcripts. Also, ensure that you update your OUAC application to include any missing information. Please be aware that failure to accurately and fully disclose all previous post-secondary study may void your application.

Below, list in chronological order from earliest (first) to most recent (last) all post-secondary institutions you have attended beyond high school. This includes all institutions where you have completed, or are currently completing, one or more courses as part of a certificate, diploma or degree program, or as a non-degree, visiting, continuing education or transfer student.

Institution Name (First post-secondary institution attended)	
Name of Program / Degree	
Start Date (e.g. Sept 2022)	
End Date (actual, if complete, or anticipated: e.g. May 2023)	

Do you have additional studies to report?

No, I have reported all post-secondary (college/university) studies above. This is the most recent institution I have attended. (1)

○ Yes, I have additional post-secondary (college/university) studies to report. (This option will open an additional page where you will be able to list an additional institution.)

ADMISSION REQUIREMENTS

MRS is a second-entry program. To be eligible for admission to the MRS program, you must present:

- 1. A minimum of one year (5.0 full course equivalents) of university education, with successful completion of 0.5 credit (typically one semester course) in each of:
 - Biology
 - Mathematics
 - Physics
 - Social Science
- 2. A minimum cumulative Grade Point Average (cGPA) of B-
- 3. Grade 12 U-level Chemistry or equivalent (Nuclear Medicine & Molecular Imaging Technology applicants only)

Biology, Mathematics, Physics and Social Science prerequisite courses must be part of (or transferable to) an undergraduate degree program; we do not consider diploma or certificate program courses for admission purposes.

Academically competitive applicants will be invited to participate in a mandatory admissions interview, and admission decisions are based on both the review of academic transcripts and interview scores. Refer to <u>www.medicalradiationscrepces.ca</u> for details regarding admission requirements and the application process.

R

PREREQUISITE COURSE REPORT

On the following pages, please report the prerequisite courses you have completed, are currently completing or plan to complete.

If you have completed more than one 0.5 credit course in a prerequisite subject, please report the course with your highest grade. Although there is no stated minimum grade for prerequisite courses, grades below 60% or "C-" are generally not considered competitive*.

For examples of courses that can be used to satisfy prerequisite requirements, refer to the <u>Admission Requirements</u> section of our website. If a prerequisite course result is not available by the February 15 Document Deadline, you must submit transcripts confirming that the course is "in-progress" or indicate the **earliest date** you will be able to provide confirmation of your enrolment. Only grades available by the February 15 Document Deadline will be included in our calculation of your academic score.

Outstanding prerequisite course results must be submitted as soon as they are available and <u>no later than July 15</u>.

*If you report a prerequisite course with a grade below 60% you may wish to register in an additional course and provide proof of registration by the February 15 Document Deadline. Please note that registering in additional courses does not guarantee admission, however it may make your application more competitive.

BIOLOGY PREREQUISITE

Undergraduate courses which are equivalent to U of T's <u>BIO130H1 (Molecular and Cell Biology)</u> or courses with a primary focus on **molecular**, **cellular** and/or **human biology**, will typically be sufficient to satisfy the Biology prerequisite requirement. Anatomy and Physiology courses, as well as advanced courses in areas such as Genetics, Immunology, and Neuroscience, will also be considered..

Please note that biochemistry courses; courses which focus on ecology, plant or animal biology; and lab/research courses are not suitable to satisfy the Biology requirement for MRS admission. Prerequisite courses must be part of (or transferable to) an undergraduate degree program; we are not able to consider diploma or certificate program courses for admission purposes. If you are unsure if a course you have completed, or plan to complete, will be appropriate for admission purposes, please forward the course code and course syllabus (if available) to mrs.admissions@utoronto.ca for review.

Please provide the course details for the course you intend to use to satisfy this requirement. If you have completed more than one acceptable course, report the course with the highest grade.

Session (e.g. Fall 2020)	
Notes (Optional)	

BIOLOGY PREREQUISITE

Is this Biology course complete?

○ YES, the final grade appears (or will appear) on my official transcripts which will be submitted by the February 15 Document Deadline. My final grade in this course reported on my transcript is: _____

○ NO, I am currently completing the course and it will appear as "in progress" on my official transcripts which will be submitted by the February 15 Document Deadline. An updated official transcript with these results will be forwarded at the end of the Winter semester.

NO, I plan to register in the course in the Spring (May–June) Semester and submit results no later than July 15. I understand that proof of registration must be submitted to the JOIN U of T site as soon as it is available and no later than June 1, 2023.

MATHEMATICS PREREQUISITE

Undergraduate courses which are equivalent to U of T's <u>MAT135H1 (Calculus 1A)</u> or courses with a primary focus on **Calculus** or **Algebra** at the university level will usually be sufficient to satisfy the Math prerequisite requirement.

Please note that Statistics courses do not provide an adequate foundation for the MRS Program and therefore are not considered appropriate to satisfy the Mathematics requirement for MRS admission. Prerequisite courses must be part of (or transferable to) an undergraduate degree program; we are not able to consider diploma or certificate program courses for admission purposes. If you are unsure if a course you have completed, or plan to complete, will be appropriate for admission purposes, please forward the course code and course syllabus (if available) to mrs.admissions@utoronto.ca for review.

For a list of popular Mathematics courses that are appropriate to satisfy the Mathematics requirement for MRS admission, please see the <u>Academic Requirements</u> section of our website.

Please provide the course details for the course you intend to use to satisfy this requirement. If you have completed more than one acceptable course, report the course with the highest grade.

MATHEMATICS PREREQUISITE

Is this Mathematics course complete?

○ YES, the final grade appears (or will appear) on my official transcripts which will be submitted by the February 15 Document Deadline. My final grade in this course reported on my transcript is: _____

○ NO, I am currently completing the course and it will appear as "in progress" on my official transcripts which will be submitted by the February 15 Document Deadline. An updated official transcript with these results will be forwarded at the end of the Winter semester.

NO, I plan to register in the course in the Spring (May–June) Semester and submit results no later than July 15. I understand that proof of registration must be submitted to the JOIN U of T site as soon as it is available and no later than June 1, 2023.

PHYSICS PREREQUISITE

Undergraduate courses which are equivalent to U of T's <u>PHY131H1 (Introduction to Physics I)</u> or courses that include topics such as classical kinematics and dynamics, energy, force, angular momentum, oscillations and/or waves will usually be sufficient to satisfy the Physics prerequisite requirement.

Please note that courses intended for non-scientists with a focus on general concepts of Physics (or astronomy) do not provide an adequate foundation for the MRS Program and therefore are not considered appropriate to satisfy the Physics requirement for MRS admission. Prerequisite courses must be part of (or transferable to) an undergraduate degree program; we are not able to consider diploma or certificate program courses for admission purposes. If you are unsure if a course you have completed, or plan to complete, will be appropriate for admission purposes, please forward the course code and course syllabus (if available) to mrs.admissions@utoronto.ca for review.

For a list of popular Physics courses that are appropriate to satisfy the Physics requirement for MRS admission, please see the <u>Academic Requirements</u> section of our website.

Please provide the course details for the course you intend to use to satisfy this requirement. If you have completed more than one acceptable course, report the course with the highest grade.

SOCIAL SCIENCE PREREQUISITE

Courses in areas such as Sociology, Economics, Social Geography, Political Science, Anthropology, Women's Studies, Criminology as well as some Psychology courses may be used to satisfy the Social Science prerequisite requirement. Acceptable courses will focus on the study of society and the manner in which individuals behave and influence the world beyond their immediate experience. In most cases, if the institution that offers the course has categorized the course as Social Science, it will be acceptable to satisfy the Social Sciences prerequisite requirement.

Please note that Humanities courses (including Art, Cinema, Classics, Drama, English, History, Literature, Philosophy and Religion courses) are not suitable to satisfy the Social Science requirement for MRS admission. Prerequisite courses must be part of (or transferable to) an undergraduate degree program; we are not able to consider diploma or certificate program courses for admission purposes. If you are unsure if a course you have completed, or plan to complete, will be appropriate for admission purposes, please forward the course code and course syllabus (if available) to mrs.admissions@utoronto.ca for review.

Please provide the course details for the course you intend to use to satisfy this requirement. If you have completed more than one acceptable course, report the course with the highest grade.

ADDITIONAL ACADEMIC INFORMATION (OPTIONAL)

Please use the space below if you would like to provide any additional information or comments related to your prerequisite courses or academic eligibility.

If you plan to complete additional courses (not reported on the previous pages) in the prerequisite subjects during the Winter (January-April) 2023 or Spring 2023 (May-June) semesters, please provide the institution, course code and session information below:

(Maximum: 500 Characters)

Q K	

HOW DID YOU HEAR ABOUT THE MRS PROGRAM? (OPTIONAL)

To help us improve our communications and outreach to prospective applicants, please answer the following two optional questions.

How did you first learn about the MRS program?

\bigcirc Friend or family member in the program
O Personal interaction with a Medical Radiation Technologist
O Guidance counsellor or career advisor
O Social media (Facebook/Instagram)
Online research
\bigcirc Program website or interaction with the MRS Admissions Office
O Information Event (Education Fair)
O U of T Fall Campus Day
O Michener Open House
O Other:

What influenced your decision to apply to the MRS Program? (1 = not at all influential, 10 = very influential)

- _____ Friend or family member in the program
- _____ Personal interaction with a Medical Radiation Technologist
- _____ Guidance counsellor or career advisor
- _____ Social media (Facebook/Instagram)
- _____ Online research
- _____ Program website or interaction with the MRS Admissions Office
- _____ Information Event (Education Fair)
- _____ U of T Fall Campus Day
- _____ Michener Open House
- _____ Other: _____

You have reached the end of the survey!

Are you ready to submit your responses?

If you have accurately completed all segments of the survey and you are ready to submit your responses, please click the forward button below. **Please note that once you have moved beyond this page you will no longer be able to make changes to your responses.**

The academic information you have provided will be verified as part of our review of your academic transcripts. If further information is required, or any questions arise, we will contact you.

Please click the forward button below to submit your responses.
