UT-DRO Evening Journal Club

Happy New Year everyone! You are invited to attend the inaugural UT-DRO Journal Club. The purpose of this event is to develop knowledge exchange and promote collaboration on clinical, scholarly and educational research initiatives within UT-DRO.

Brain Metastases and Neurocognition: The Toronto Brief Neurocognitive Battery Project

Presented by:

Dr. Caroline Chung MD FRCPC

Assistant Professor, Department of Radiation Oncology, University of Toronto
Radiation Oncologist, Princess Margaret Hospital

Dr. May Tsao MD FRCPC

Associate Professor, Department of Radiation Oncology, University of Toronto
Radiation Oncologist, Sunnybrook Odette Cancer Centre

Tuesday, January 26, 2016

Reception 6:00pm; Presentations & dinner: 6:30pm prompt; Wrap up 8:00pm
Medical Academy Room, Sunnybrook Estates, 2075 Bayview Ave

Objectives:

1. To appreciate the importance and causes of neurocognitive deficits in patients with brain metastases
2. To identify tools to assess neurocognition and to be aware of the Toronto Brief Neurocognitive Battery being developed
3. To discuss technological advances and new radiation strategies that aim to spare neurocognition

(Sent on behalf of Drs. Rebecca Wong, Jennifer Croke and Eric Leung, Department of Radiation Oncology, University of Toronto)
