

MRS Prerequisite: Mathematics

Undergraduate courses which are equivalent to U of T's [MAT135H1 \(Calculus 1A\)](#) or courses with a primary focus on Calculus or Algebra at the university level will usually be sufficient to satisfy the Math prerequisite requirement. To determine course equivalencies, please refer to U of T's Transfer Explorer tool: <http://transferex.utoronto.ca>.

Please note that Statistics courses do not provide an adequate foundation for the MRS Program and therefore are not considered appropriate for admission purposes. Prerequisite courses must be part of (or transferable to) an undergraduate degree program; we are not able to consider diploma or certificate program courses for admission purposes.

Listed below are popular Math courses that are appropriate for admissions purposes. If you have completed, or plan to complete, a course not listed below (or not equivalent to a course listed below), please forward the course code and course syllabus (if available) to mrs.admissions@utoronto.ca for review.

MRS is a second-entry program which requires previous university experience. To be eligible for admission applicants must have completed at least one full year (equivalent to 5.0 U of T credits) of university degree studies (with a cGPA of B- or higher) including a single-semester course (0.5 credit course) in Biology, Math, Physics and a Social Science. Prerequisite courses must be part of (or transferable to) an undergraduate degree program; we are not able to consider diploma or certificate program courses for admission purposes. Applicants seeking admission to the Nuclear Medicine & Molecular Imaging Technology (NMMIT) stream must also present Grade 12 Chemistry, or equivalent. Refer to www.medicalradiationsciences.ca for details regarding admission requirements and the application process.
